Eucalyptus green matt AFP  
and worktop K209 Pebble grey  
textured

**Planning details:** mobile side  
table, panel garden, frame rack  
with sliding door, carcass in  
pebble grey

### Picture description

Ecologically conscientious and combined with a range of vibrant colours, the pebble grey matt fronts with their anti-fingerprint surface give the room a friendly feel right through to the cosy dining recess. The environmentally friendly front material and interior fittings from OrganiQ join forces with the OceanIX handles to form a sustainable ensemble. The kitchen stands out visually with its front-flush soffits and the frame rack shelves with sliding door. Cooking utensils and food can be stylishly put away in the top unit featuring a roller-shutter in onyx black, while the corner shelf hides away kitchen appliances in the carcass. The mobile side table can be used to serve, act as a kitchen aid or for other purposes, after which it can be quickly collapsed and tucked away in the corner.

### Material description

**Matera** | UV lacquer front, available in 6 colours

**Matera Colour** | UV lacquer front, available in 5 colours

The new Matera and Matera Colour fronts are made from particle board featuring direct coating. They consist of 89% renewable primary materials and 71% wood from the circular economy and are 100% recyclable. The new fronts even have something to offer aesthetically: the matt surface is soft to the touch and easy to maintain thanks to its anti-fingerprint properties – available in six new colours.

Front thickness: 19 mm

**OrganiQ** | Interior fittings, available for all systems

OrganiQ is made from 78% CO<sub>2</sub>-absorbing natural fibres hemp and kenaf, which grow back quickly.

### Further information

The OceanIX handles and unit carcasses made from recycled plastic come in pebble grey. This creates a colour consistency purely through environmental friendly products.

## Social Media building blocks

### Caption idea

Sustainability meets style! Sustainable fronts create a friendly atmosphere in the kitchen. The best part? Seventy-one percent of the fully recyclable front material comes from the circular economy and contributes to climate protection. And in this spirit, the handles are made from recycled OceanIX Plastic.
