

## Front Modena Data Sheet

Factsheet —

**Materials:** Fronts K066 Oak cognac brown effect and Smartglas matt A127 Polymer glass ecru matt combined with a Systemo worktop in Q1390 Lime delight matt

**Planning features:** SingleX front partition, wine cooler, intermediate shelf for base units, floor-to-ceiling fronts, robot vacuum cleaner garage, pantry, wardrobe

### Description

With a large, open floor plan, a double galley kitchen is a wise and attractive choice. To give the whole room originality and a touch of class, colours, shapes and functions should be combined in a harmonious but unique way. Cool smart glass meets a warm wood look – handless elegance versus vertical bar handles. The extended fronts on the kitchen island create a sophisticated, cubic look that is made more casual by the stylish open shelving on the front. In the same colour as the rear panel, the Frame Rack open shelving breathes life into the row of tall units with its effective lighting. The units themselves provide plenty of storage space, even for a fully-equipped larder behind the access door disguised as a tall unit.

### Material description

**Modena |** Laminate front, available in 3 colours

Hard-wearing fronts with high-quality melamine resin coating on front and back. An all-round thick edge in the front colour provides sufficient protection.

Front thickness: 19 mm

**Smartglas matt |** Polymer glass front, available in 6 colours

The polymer glass surface impresses with its high-quality finish, which makes it particularly stable and robust in daily use. The special AFP anti-fingerprint property reduces fingerprints and thus considerably reduces the cleaning effort. At the same time, the contemporary, velvety design invites you to touch it and feel good.

Front thickness: 19 mm

## Social Media building blocks

### Caption idea

A harmonious mix of sage green and wood decor with inlays creates the perfect place for unlimited delight. And because the kitchen flows smoothly into the living and entrance areas and the pantry is not far away either, there is enough space for life to flow freely.
